

MULTIGATE Cadence® Hand Instrument

Cholangiogram Forceps (Ratcheted)

Effortless Precision

Multigate Cadence® Cholangiogram Forceps enable easy and secure placement of catheters up to 5Fr.

FEATURES

Comfort & Precision

Multigate's Cadence® Cholangiogram Forceps deliver the ergonomic comfort and precision you need to perform at your best.

- ✓ Eliminates cross-inflection risk.
- ✓ Single-use eliminates CSSD costs and guarantees sterility for every patient.
- ✓ High quality grasping tip, materials and craftsmanship you expect from a reusable instrument in a single-use instrument.
- ✓ New instrument guarantee – gives you the performance and confidence you require every time.

Ratcheted: Handle design improves control and reduces fatigue by securely grasping and locking.

Reliable Injection: Easy access to flushing port. Accommodates catheter gauge sizes up to 5Fr.

Reduced fatigue: Comfortable handle design provides optimal control during surgical procedures, for most hand sizes.

Precision: High quality precision tip and responsive ratchet handle combine to provide gentle and secure control.
